## TO WHOM IT MAY CONCERN

### HELENSVALE SWIMMING POOL

I certify that the Helensvale Swimming Pool was surveyed on 6 February 2007 using a LEICA total station instrument – Model TCRA 1205 Serial Number 219598, which was factory calibrated on 18 September 2006.

Results of the survey found the length of the pool to be 25.01 metres (+/-5mm). Helensvale Pool has a beach entry, therefore no width measurements were taken. Refer Attachment 1 for depths.

The measurements using Laser technology was taken from the water face of the pool tiling in the approximate centre of the pool lengthways.

The survey was performed by Brook Wyatt (Senior Engineering Surveyor), Gold Coast City Council Survey Section.

Yours faithfully

A handwritten signature in black ink, appearing to read 'Christopher Stephens'.
